About Monica Graffeo

(IT)

La collaborazione con Monica Graffeo come direttore creativo e product designer ha da sempre ispirato Rexa a indagare il rapporto fra tecnologia, benessere e creatività.
I suoi concept propongono una visione che pone al centro la persona e i suoi bisogni reali, quotidiani.
La ricerca sull'evoluzione degli spazi e degli stili di vita e l'attenzione alla percezione sensoriale si traducono in soluzioni che aprono scenari progettuali per gli ambienti casa e contract.

MG: "La sintonia con Rexa nasce dall'inclinazione condivisa a guardare oltre, mantenendo un forte senso di concretezza. Così è nato Vision: un progetto che ragiona su un contenimento a profondità contenuta e si sviluppa con proporzioni verticali, inglobando il lavabo e lasciando spazio libero per vivere meglio l'ambiente e per trovare le cose proprio dove ci servono, non in seconda o terza fila, ma tutto in primo piano."

(EN)

The collaboration with Monica Graffeo as creative director and product designer has always inspired Rexa to investigate the relationship between technology, wellness and creativity.
Her concepts suggest a vision that focuses on the person and his/her concrete, everyday needs.
The research on the evolution of spaces and lifestyles and the attention to sensory perception are translated into solutions that open up design scenarios for home and contract environments.

MG: "The synergy with Rexa comes from a shared attitude to look beyond, while keeping a strong sense of concreteness. That's how Vision was born: a project that focuses on a limited depth storage concept and develops towards vertical proportions, encompassing the washbasin and leaving
free space for an improved space experience, and in order to find things right where we need them, not in the second or third row, but everything in the foreground."

(FR)

La collaboration avec Monica Graffeo, directrice créative et designer de produits, a toujours inspiré Rexa à enquêter sur le rapport entre technologie, bien-être et créativité.
Ses concepts proposent une vision qui place au centre la personne même et ses besoins réels, quotidiens. La recherche sur l'évolution des espaces et des styles de vie et l'attention à la perception sensorielle se traduisent par des solutions qui ouvrent des scénarios de conception pour les environnements domestiques et contract.

MG: "La syntonie avec Rexa naît de l'inclination partagée à regarder au-delà, en maintenant un fort sentiment de concret. Ainsi est né Vision : un projet qui raisonne sur un rangement à profondeur contenue et se développe avec des proportions verticales, en englobant le lavabo et en laissant de l'espace libre pour mieux vivre l'environnement et pour trouver les choses où il nous faut, pas dans la deuxième ou troisième rangée, mais au premier plan."

(DE)

Die Zusammenarbeit mit Monica Graffeo als Kreativdirektorin und Produktdesignerin hat Rexa stets dazu inspiriert, die Beziehung zwischen Technologie, Wellness und Kreativität zu untersuchen.
Ihre Konzepte legen eine Vision nahe, die sich auf den Menschen und seine konkreten, alltäglichen Bedürfnisse konzentriert. Die Erforschung der Entwicklung von Räumen und Lebensstilen und die Aufmerksamkeit für die Sinneswahrnehmung werden in Lösungen umgesetzt, die Design-Szenarien für Wohn- und Objektbereiche eröffnen.

MG: "Die Synergie mit Rexa ergibt sich aus der gemeinsamen Einstellung, über den Tellerrand hinauszuschauen und gleichzeitig einen starken Sinn für das Konkrete zu behalten. So entstand Vision: ein Projekt, das sich auf ein Stauraumkonzept mit begrenzter Tiefe konzentriert und sich zu vertikalen Proportionen entwickelt, die das Waschbecken einschließen und Freiraum für ein verbessertes Raumerlebnis lassen, und um die Dinge genau dort zu finden, wo wir sie brauchen, nicht in der zweiten oder dritten Reihe, sondern alles im Vordergrund."
