Octo X

design David Lopez Quincoces

Sottrarre per valorizzare, semplificare per definire, trasformare l'oggetto funzionale in elemento architettonico: questo è l'approccio progettuale di David Lopez Quincoces per Octo X.

Il risultato è una collezione con una chiara identità e forza espressiva, in cui design essenziale, funzione e materia entrano in un dialogo misurato e coerente.

Octo X si distingue per un linguaggio formale rigoroso e sofisticato: superfici pure e linee orizzontali si incontrano in un equilibrio perfetto. La luce scorre sui volumi, esaltandone la precisione e restituendo una sensazione di solidità e assoluta eleganza.

Realizzato in acciaio inox AISI 316 L, Octo X esprime una scelta che è al tempo stesso tecnica e culturale: un materiale nobile, resistente e sostenibile, capace di valorizzare la precisione del progetto e garantire prestazioni elevate nel tempo.

Disponibile sia nella versione monocomando che in quella tradizionale, Octo X offre ampie possibilità compositive, per inserirsi con naturalezza in contesti contemporanei o in ambienti più classici, proponendo sempre un'estetica attuale.

Octo X è un sistema completo di rubinetteria che unisce eccellenza tecnica e sensibilità estetica, pensato per dialogare con l'architettura del bagno contemporaneo e definirne il carattere.

To subtract in order to enhance, to simplify in order to define, to transform a functional object into an architectural element: this is David Lopez Quincoces' design approach for Octo X.

The result is a collection with a clear identity and expressive strength, where essential design, function, and material engage in a measured and coherent dialogue.

Octo X stands out for its rigorous and sophisticated formal language: pure surfaces and horizontal lines meet in perfect balance. Light flows across its volumes, magnifying their precision and conveying a sense of solidity and absolute elegance.

Crafted from AISI 316L stainless steel, Octo X embodies a choice that is both technical and cultural: a noble, durable, and sustainable material, capable of enhancing the precision of the design and ensuring high performance over time.

Available in both single-lever and two handle versions, Octo X offers wide compositional possibilities, integrating naturally into contemporary settings as well as more classic environments, always expressing a modern aesthetic.

Octo X is a complete tapware system that combines technical excellence with aesthetic sensitivity, designed to engage with the architecture of the contemporary bathroom and define its character.

Sustraer para valorizar, simplificar para definir, transformar el objeto funcional en un elemento arquitectónico: este es el enfoque proyectual de David López Quincoces para Octo X.

El resultado es una colección con una identidad clara y una gran fuerza expresiva, en la que el diseño esencial, la función y el material entran en un diálogo medido y coherente.

Octo X se distingue por un lenguaje formal riguroso y sofisticado: superficies puras y líneas horizontales se encuentran en un equilibrio perfecto. La luz fluye sobre los volúmenes, realzando su precisión y transmitiendo una sensación de solidez y absoluta elegancia.

Fabricado en acero inoxidable AISI 316L, Octo X expresa una elección que es al mismo tiempo técnica y cultural: un material noble, resistente y sostenible, capaz de valorizar la precisión del proyecto y garantizar altas prestaciones a lo largo del tiempo.

Disponible tanto en versión monomando como en la tradicional, Octo X ofrece amplias posibilidades compositivas, integrándose con naturalidad en contextos contemporáneos o en ambientes más clásicos, proponiendo siempre una estética actual.

Octo X es un sistema completo de grifería que une excelencia técnica y sensibilidad estética, concebido para dialogar con la arquitectura del baño contemporáneo y definir su carácter.
